

Deep Condolence to Our Beloved Editor Dr. Michael Naafs A.B.

We can't tell you how sorry we were to hear of our Editor's passing on 27 August 2020. He was such a kind personality and we will always remember him for his devoted work and enormous contribution towards the journal of CPQ Medicine. We always admire his tireless energy and nothing ever seemed to slow him down.

The one thing we will probably miss the most is the valuable guidance we seek from him. He was always quick to work with the team and we will miss his wisdom and eminent articles.

We hope to find the inner strength to get through this sad and difficult time.

Praying that God grants peace to his soul!
